Conference research offers the ideal environment for the interchange of ideas between the industry and physicians.

Synovate Healthcare has been conducting market research at medical conferences for over 20 years, and our team attends over 20 international conferences every year.

We are experts in bringing you valuable feedback from your key customers, providing you with fast, cost effective and high quality data.

Conference Research capabilities include:

- Exhibition stand evaluation
- Ad testing/detail testing
- Competitive intelligence reports
- Qualitative interviewing
- Focus groups
- Company sponsored symposia evaluation
- Impact of clinical data release
- Conference follow-up research
- Opinion leader research
- Benchmarking*

Optional computer-aided interviewing offers:

- Choice of face-to-face or self-complete methodologies
- Faster turnaround of data results
- Daily reports and top-line data available at the conference
- Multi-language interviewing

*New for 2010 - now giving you the ability to measure your performance against competitors

Please contact Synovate Healthcare's International Conference Research Team about research at these or any other medical conferences.
